

South Central Communications Net Neutrality Policy

- South Central Communications practices net neutrality.
- South Central Communications is committed to ensuring its customers an Internet service that does not discriminate from legal content.
- South Central Communications will not favor or prioritize any lawful Internet content or applications over others, while insuring network security and integrity.
- South Central Communications does not block, discriminate against, impair or degrade the ability of our customers to use Internet services to access, use, send, post, receive or offer any lawful content, device, service or applications through the Internet.
- South Central Communications does not offer a paid priority service for customers to favor traffic over another's.
- South Central Communications is committed to maintaining an open broadband service that allows our customers to freely use the Internet in a lawful manner that complies with our Acceptable Use Policy and Terms of Service.
